Textiles - essential life companion and powerful protector

9.00-12.45 LECTURES

14.00-16.00 TSRC promenade
Savska 16 / building 9

Textile Science Research Centre, TSRC, which exists since 2008 at the University of Zagreb, Faculty of Textile Technology, presented research potentials and promoted the textile science through the topic *Textiles - essential life companion and powerful protector*. Topic was presented through morning lectures and TSRC promenade in the afternoon session when participants were introduced to the research capacities of TSRC equipment located in Savska 16/9. In the framework of the promenade was organized workshop, dedicated to connection between a tradition and contemporary textile science.

Prof. Tanja Pušić, TSRC head
